

PMH P Series

Axial Piston Variable Pump

- Displacement: 35, 55, 72, 90, 110, 180, 210 cc
- Fully variable displacement
- Axial Piston Pump
- Peak pressure 500 bar
- Manual or EP Proportional control available
- Several valve options available

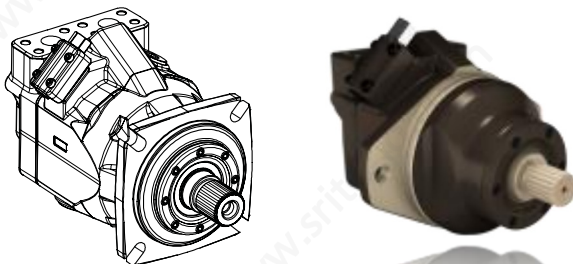

PMH MCF / M Series

Axial Piston Fixed Motor

- Displacement: 35, 55, 72, 90, 110 cc
- Fixed displacement
- Peak pressure: 500 bar
- Integrated flushing valve and speed sensors options

PMH MCV / MKV Series

Axial Piston Variable Motor

- Displacement: 55, 72, 90, 110 cc
- Variable displacement
- Peak pressure 500 bar
- Several valves and speed sensors options

PMC / PMR Series

Track and Wheel Drive

- Output Torque: 2.000 ÷ 260.000 Nm
- Reduction Ratio: 21 ÷ 380
- Completed by PMH M hydraulic motors series

PMCI Series

Travel Drive with Integrated Motor

- Output Torque: 10.000 ÷ 220.000 Nm
- Reduction Ratio: 24 ÷ 325
- Max Displacement: 55 ÷ 180
- Variable Displacement
- Completed by PMH MI motors
